Under the Terms of Union with the Deminion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests, during the next tenyests. Should, however, the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining, and commercial interests of your district.

agricultural, mining, and commercial interests of your district.

At the Dominion now possesses exclusively the right to manage our posts and telegraphic affairs, I shall endeave to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—said also better mail facilities in each Settlement; and as I deem it to be obgreat importance commercially to have the most rapid meshs of transmiffling intelligence between Namaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the Province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more Lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Amanino at once, and to erect

Dominion Patronage The union of British Columbia with the General of Deeds, upon the acceptance Dominion of Canada has placed in the of which he retired from professional hands of the Canadian Government a practice, and devoted himself exclusively large amount of patronage in the way of to the discharge of his official duties, is and emplointments to various offices of trust which he was uniformly attentive, and by the unbuilty of his manuers and gentlemanly deportment gained the esteem and good will of all with whom he came in official contact. As a member of the Legislative Council he always manifested a desire to lead the weight of his influence of such measures as anthorities. This Province occupies an entirely different position, so far as its retail on the central government, is concerned, to that of any of the other Provinces at the period of their entering into the Confederation. They all, with the exception of Manitoba, were in the enjoyment of a responsible system of government, which continued intact, and whose Executive possessed the confidence of the people and were answerable to the of the people and were answerable to the people for their official acts, and in addiof Education, and entered heartily upon the discharge of the duties of that responsible trust. He drew up and carried through the Legislative Council a Bill for the establishment and maintention to which they were at once represented in both the Houses of the Dominion Legislature, and in the Dominion Cabinet as well. Hence the bestowment of patronage in those Provinces by the Dominion Government was made in acand although in all respects it cannot be said to have been a success, still we give ordance with the well understood wishes of the people, as expressed through their representatives in the Cabinet and Parliament of the Dominion. It is not so in British Columbia. As yet we are withgeneration throughout the country. In out representatives in the Dominion Government, nor have the people of the Province any authorized medium through and most valued members. From its which to convey their wishes to the auorganization to the present time he has been identified with it, and by the benefit the disposal of the public patronage or any other matter. In view of these facts we would suggest to the Government at could to promote its welfere and increase its usefulness. As an acknowledgment Ottawa the expediency of reserving the making of permanent appointments until of his services to the Institute, he was yesterday the recipient of an address the people of this Province have their accredited representatives at Ottawa to advise the Executive in re-ference thereto. Owing to circumstances of which the people of this country have had no control whatever, the Dominion Government has been brought him official communication with a class of men from this province who do not now and never did fairly represent public

by teachers and pupils. In fact, wherever duty called, or the weight of his moral and christian influence was reopinion or enjoy its confidence. These the persistent opponents of Confederation from its inception until the pressure of public opinion compelled the Governquired, there Mr. Auton was always to such a man at the present period in her history, and although he takes his de-parture with feelings not unmixed with ment to take the subject in hand and ne-gotiate the terms upon which we were finally admitted. Neither would the people of British Columbia have been to-day in the enjoyment of the privileges of selfgovernment and the right to choose from among their own number those who shall administer the internal affairs of the country, if the opposition of those gentlemen could have availed to prevent it. MOONLIGHT EXCURSION TO It is therefore anything but fair to those who have through evil report and good report, stood by Confederation, and been instrumental in working out those political changes which are destined to bring this country up from the condition of comwhich has been hindly tendered for the securio mercial and manufacturing decay in Mechanics Literary Institute which it has fallen through the extravaheld the reins of power, that they should be entirely overlooked in the bestowment of Dominion patronage in the coun-THE SPLENDING BAND OF H. If the representation in the House of Commons from the Province of British Columbia is destined to give incressed strength to the existing adminis-tration, and we doubt not such will be the case, it is not to those who battled against Confederation as long as resistance was of any avail that the Ottawa Cabinet are under obligation, but to those **CUNNINGHAM & HANKIN** who by a steady adherence to the great principle of Union, succeeded at last in its accomplishment, thereby placing in position the keystone in the arch of Confederation. tee on the Budget agreed to fix the salary of Thiers at halt a million frans, with credit addition for ordinary expenses.

London, August 21—The following is the most important of the Queen's speech: The time has now arrived when I am enabled to release you from your attendance on Parliament, and to commend your unwearied labors for the public need. I acknowledge he was one of the first persons to suggest to Governor Musgrave the necessity of building a railway to connect Prince Arthur. The great events and cessity of building a railway to connect Prince Arthur. The great events and s with Canada, which idea he said, was changes which have recently occurred in totally repudiated by His Excellency. With special satisfac-Wallace had the pleasure to see his ideas tion I refer on the present occasion to our re-adopted. The speaker wasn't pledged to any lations with the United States. By the

Treaty of Washington, modes of settlement have been fixed upon for several questions Mr. Bunster was astonished with being which had long remained in dispute with the called upon to address the meeting, as his United States Government. The President concurred with me in the application of the political ideas, he thought, were sufficiently concurred with me in the application of the known, from Cape Flattery to Cariboo. He principle of amicable reference which was roclaimed by the Treaty of Paris, and which rejoice to have opportunity of recommending by example. We also agreed in the adoption of certain rules for guiding the maritime conduct of neutrals, which may, I trust, obtain general recognition, and form a valuable addition to the code of International

laws. I place full reliance upon the disposi-tion of America to carry forward with corand an indolent lot, and not worthy of consideration; that they were only capable of scratching a patch of land here and there, and were not worthy to be called farmers.

Mr. Jessop on a vote of the meeting was consent, which in my view are highly consent, which in my view are highly consent. ducive to the interests of the Dominion. On these provisions, however, that Parliament ndolent lot; he had said only that farming will pass an independent and final judgment The Government of France has signified its desire to alter some provisions in the Com-mercial Treaty of 1860, which is now termin

I mm anxious to meet the wishes would agree to adopt, if elected, the tariff selected by the local legislature. He was pledged to no one party or sect. of a nature to restrict that commercial inter course between two countries which hav done so much for closer union. The Chancellor read the speech and de-

Naw York, August 20—A Dublin correspondent of the London Times of the 9th, describing the Dublin riots, says : P. J. Smith, a "Home Rule" member of Parliament, was proceeding with his speech, when suddenly there shot into view round the corner of the Wellington Monument, a considerable body of police, truncheons in hand, and without a word of warning, began to strike mercileasly on all sides. If an impartial inquiry be in-stituted by the Government, I believe it will be found that throughout the period during which so many dreadful wounds were given by the police, no resistance was offered, and none could be offered. No defease was attempted beyond the use of umbrellas, in truncheons. Everyone was assailed; newspaper reporters, Conservative and Liberal, many with notebook and pencil in hand, and some personally known to the police for years past, as members of the press, were as savagely attacked as anyone else. Plying victims were tripped up in order that while on the ground ther might be bludgeoned. A person was quietly walking away alone, when some policemen ran at him, and one of them dealt him a fearful knock on the hip, which staggered him, and before he could utter a cry, another blow from a truncheon felled him to the earth, gory with blood.

The Timber of British Columbia

The timber of British Columbia is describe as something marvellous, Mr. Wikeson, speaking of the trees about Puget Sound, which are not in any way superior to thoin many parts of the British territory, says:

"Many of them are 250 feet in length and measure 25 feet in circumference six feet from the root, and will sursish 150 feet of clear solid timber under the branches. The masts to be had on Vancouver Island are superior in flexility and density to the very best from the Baltic. For ship-building purposes the wood supplied on the Pacific coast cannot be surpassed." At Talk 2 100M Captain Lennard, in his book on British

Columbia, speaking of the pines of that quarter, says: - My readers will scarcely believe that a man baying made a bet that he would cut down a choice specimes with an are in three weeks, could not, in spite of all his efforts, accomplish his task; and yet

The Hon. S. Garfield, deputy to the U. S. Congress from the district of Washington, lu letter to Mr. Samuel Wikeson, says :- The size of the pines is almost incredible Saturday, August 26th, to the inhabitants of the Atlantic coast. Trees often measure 320 feet in length, twosixty, and even eighty good trees grow on an acre. In an exploratory journey made in 1868, we picked out a medium tree and cut it down. This tree measured 42 inches in diameter at the foot, and at the first branches. that is two hundred feet from the ground, 22 nches. From that to the top were other 70

They found no acre that would produce less than 30,000 feet of timber, and 60,000 and even 120,000 were about the medium The timber trade from Puget Sound bas already reached formidable dimensions. is said by Mr. Mache that there are pines in

British Columbia whose bark is nearly a foothick, and thuse ascertained to be four hun dred years old are found quite sound at the hears. It is no rare thing to find pines in British Columbia 406 feet in height and from 50 to 60 feet in circumference - E-alish Pap

The chair being vacant, Mr. DeCosmos urged that, as a matter of fairness, he would suggest that Mr. Jessop be heard. The meeting agreed to hear him; but without a support it, if elected. The Chairman, Mr. Mcllmoyl, resumed the chair, and stated that a few days previously Mr. Jessop had told him, in North Saanich, that the farmers were

rotect, and did did not deserve to be proteced, and he thought such a man was undeerving of the support of the electors of trawn. The result of the meeting so fer as licited was in tavor of Mr. Wallace for the Northern and Mr. DeCosmos for the South Ottawa district. The feeling was also unan-imously in favor of Mr. DeCosmos for the Local
